## Field Technician (all genders) (Fulltime/ 38.5 hrs)

*You ensure the worldwide installation and support commissioning and maintenance of our CellCubes and improve the world with us.*

### Your responsibilities:

- You support the preparation and execution of global installation, service, and maintenance works.
- You set up our system at the site: You marry our energy and power unit and install other components such as dry coolers and cabling, you ensure the quality and fill the system for commissioning.
- You carry out maintenance and service work on our installed CellCubes for our customers.
- You help us to make our product even better through your daily work.

### Your profile:

- You have completed a technical education in related fields such as electronics, electrical engineering, mechatronics, or similar (Apprenticeship, Technical School, or Technical College).
- You have at least 2 years of professional experience in plant engineering, and you have actively worked on construction sites.
- You have an international mindset: a willingness to travel, good German and English skills (spoken and written), and any other language is an advantage.
- You are solution-oriented, a strong team player, skilled in dealing with customers, and have a strong awareness of quality, health & safety.

### Our offer:

- Leading technology in the field of Vanadium Redox Flow Batteries, with exciting and challenging tasks in a future-oriented industry.
- A respectful, appreciative atmosphere where cooperation is held in high esteem.
- A young, innovative, and sympathetic team.
- Career development opportunities along the entire product lifecycle.
- An attractive gross salary starting at € 45.000,00/year, on an all-in basis and travel compensation. Depending on professional qualifications and experience, a significant overpayment is possible.
