Your tasks:

In this role, you will be responsible for carrying out and managing service work, including inspections, repairs and maintenance, in accordance with health and safety standards in a leading (and supervisory) position remote and as well as on customer sites.

You will carry out installation and commissioning work, provide technical support/training to customers and partners. You will also investigate and rectify defects and configure system components. You will also be jointly responsible for remote support at the Battery Operations Center in Wiener Neudorf. You will work closely with our customers (worldwide, e.g. USA, Europe, South Africa, Australia, ...) in project management, production, R&D and logistics.

Your profile:

- Engineering degree in electrical engineering/electronics or similar
- Experience in service or commissioning
- Technical understanding, especially electrical engineering
- Customer orientation and problem-solving skills
- Experience with customer interactions and independent working style
- Very good MS-Office knowledge
- Fluent in German and English (written and spoken)
- Willingness to travel (max. 25%)

We offer:

- Open communication and flat hierarchies
- Opportunity to contribute your own ideas and actively help shape technical solutions
- Extensive training phase
- Further development opportunities
- Exciting places to work
- A good work-life balance
- Company credit card/company cell phone

This position is subject to the collective agreement for the metal industry. We offer a minimum gross monthly salary of EUR 4,600 in line with the market for this position. A willingness to overpay and/or travel allowance is possible depending on qualifications and experience.

Join Us – We look forward to receiving your application.
